"Handicap" Sale Now in Progress

EXPLANATION:

Our policy of semi-annual Profit Sharing distribution to our sales-people, will be augmented during the month of August, by the "Handicap Sale" and distribution of additional Cash Prizes.

We want to make August sales this year a record breaker, and as an incentive for its accomplishment among our efficient corps of sales-people Cash Prizes will be awarded to those making the greatest gain in sales compared with former averages.

Under these conditions, every Section Manager and every sales-person will be interested to an unusual degree.

Our stocks are too large—fall purchases will be shipped this month—we must have the space now occupied by September 1st which necessitates the great price concessions.

Special daily offerings in each section will characterize this sale as the greatest buying event of the season for economical purchasers.

J. Carl Beil To the Voters of Mahoning County

Candidate for County Commissioner

Subject to Republican Primaries

August 11, 1914

As I have decided to offer myself as a candidate for County Commissioner on the Republican ticket subject to your decision on Aug. 11, 1914, I feel it a duty to make myself more acquainted, and as I know no means by which to meet you all I will try to do so through the Dispatch. I am a pattern maker by trade and was foreman in the pattern and machine shop for the Scholl, Semple & Jordan Co., Youngstown, for seven years.

At the present I am an associate member of the E. E. Beil Co.

Being a lifelong resident of Mahoning county I never have sought a public office before and have never been in politics. I ask you to look up my record as a good citizen and if you find me qualified, please remember me on Aug. 11, 1914, by giving me your support.

Respectfully, your servant-to-be,
J. CARL BEIL.

Business Farmers Like NEW IDEA Spreaders

Farming is fast becoming a business. Good Farmers appreciate the value of good tools and machinery. That machine, which does the best work in the shortest time at the smallest expense is the business farmer's choice.

New Idea Spreaders will thoroughly pulverize and spread more of any kind of manure in less time than any other machine. They will spread manure wider, more evenly and at the least cost of operation.

WHY NEW IDEA SPREADERS ARE THE BEST

They are of simplest construction, which assures a durability not found in more complicated machines. They have a wide range of feeds, operated by the simplest of all feeding mechanisms. The gearless drive is the best way in which power is transmitted direct without the wear on gears. It saves horses, machine and men's temper. The New Idea Spreader is the only machine with 2 pulverizing cylinders, besides a patented distributor. Learn all about this fine spreader by examining it at
